THE LOVELAND FOUNDATION

MISSION STATEMENT

The Loveland Foundation is committed to showing up for communities of color in unique and powerful ways, with a particular focus on Black women and girls. Our resources and initiatives are collaborative and they prioritize opportunity, access, validation, and healing. We are becoming the ones we've been waiting for.

THE LOVELAND FOUNDATION

ABOUT

The Loveland Foundation was established in 2018 by Rachel Cargle in response to her widely successful birthday wish fundraiser, Therapy for Black Women and Girls. Her enthusiastic social media community raised over \$250,000, which made it possible for Black women and girls nationally to receive therapy support. Black women and girls deserve access to healing, and that healing will impact generations.

The Loveland Foundation is the official continuation of this effort to bring opportunity and healing to our community. We provide mental health resources including therapy vouchers, group sessions, therapist healing circles, monthly meditations, The Unfolding: Presented by The Loveland Foundation podcast, and additional social programming. Ultimately we hope to contribute to both the empowerment and the liberation of the communities we serve.
